This One-Design racer from 2007 has an extensive sail wardrobe by North Sails and a very complete instrument setup. With the current owners successfully using her for IRC racing inshore and offshore while also cruising she can do all extremely well. The X-41 came as standard with the carbon fibre mast and deep t-shaped keel, and is very rewarding to sail. She is currently ashore at our offices in Hamble and can be viewed by appointment throughout the week.
