

**JOB VACANCY**  
**X-YACHTS DESIGN LTD**

X-Yachts designs and builds high end performance and cruising yachts, with its production based in Denmark and Poland whilst design and marketing in the UK.  
X-Yachts has a global network of dealers.

**Interior/Industrial Designer**

X-Yachts Design Ltd is looking for an Interior Designer to complete its UK design team. Guided by the Founder and Design Director Niels Jeppesen, the position will involve 3D modelling at all stages from the conceptual design to the final production detailed drawings. The Designer will be in charge of the whole Interiors from joinery to upholstery passing by FF&E, lighting and wood veneer choice. The work will be shared between production boats and custom solutions for the largest boat in the range.

**Our expectations:**

- Experience in interior design or product design
- Experience in, and passion for the yachting industry, as a Designer and/or as a Sailor
- Will to take charge of projects
- AutoCAD Proficiency
- Parametric 3D modelling software proficiency: X-Yachts Design Ltd uses NX10 Siemens (ex. Unigraphics) but good knowledge of other parametric software is accepted.
- Experience in the production of sales material including rendering
- High attention to details
- Practical approach to problem solving bearing cost and productivity in mind
- Comprehension and adaptability to X-Yachts' quality standard and past designs
- Good communication skills to work and liaise with the other members of the design team, the suppliers and the production managers in X-Yachts' Denmark and Poland sites

**We offer:**

- Exciting and challenging job in a growing international company
- Proximity with Naval Architects and Engineers for a close collaboration
- Strong and united design team working in an informal atmosphere
- A participation to the entire project from concept design to the build
